GALÁPAGOS—WHERE NATURE & MAGIC MEET

The power and relevance of our needs as humans to connect with nature cannot be underestimated. That connection is perhaps at its greatest level in Galápagos. The vast number of animals living in the Galápagos archipelago is a major reason people choose to travel to this remote part

of the world. Where else on the planet can you get close to the wildlife in the context of no fear at all? This is a marvelous experience for the human spirit and the itinerary ensures that you will have it often—exploring the key islands in the archipelago and seeing the iconic species that make this region so unique.

You'll come eye-to-eye with the famous giant tortoises roaming in the wild. Encounter blue-footed boobies nesting along a trail. Stand paces away from courting red-throated frigatebirds. Watch your footing to avoid disturbing a sea lion lounging on a white sand beach. And swim with penguins, marine iguanas, and playful sea lions—experiences that can transform lives.

EVERY DAY IS FILLED WITH ADVENTURE

This expedition is designed to optimize your individual Galápagos experience. What would you like to do today? Which of the many activities on offer—from walks to more energetic hikes, to Zodiac shore cruises, to paddling adventures—suits your interests today? From swimming with sea lions off a pristine arc of beach to snorkeling with a passing flotilla of Pacific green sea turtles, a

Lindblad Expedition is geared to get you off the ship and actively explore all the kaleidoscopic wonders of Galápagos. The choice is yours.

LIFE ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II

The *National Geographic Endeavour II* is a floating base camp for exploring the islands. The ship has 52 thoughtfully appointed outside cabins, including dedicated solo cabins, connecting cabins, and suites. With an expansive open-air observation deck and lavishly windowed throughout the public spaces, cabins, and suites, she ensures stunning views of the never-ending panorama and access to the natural world. Designed and equipped with the benefit of 50 years experience in Galápagos, she is the perfect platform for exploring these islands, with a fleet of onboard tools—snorkel gear for every guest, kayaks, and stand-up paddleboards for personal forays. *National Geographic Endeavour II* also carries a glass-bottom boat, granting everyone a window to the undersea, with a naturalist aboard to illuminate the vivid life there.

THE HEART OF THE EXPERIENCE

The warmth, humanity, and dedication of the expedition team, officers, and crew are unequalled. The engaging naturalists, many of whom were born and raised in the Galápagos, have a deep understanding of all aspects of the islands' natural and human history and are experts in ornithology, geology, zoology, the undersea, and conservation. Your time with them will greatly enhance your understanding of this remote, legendary archipelago.

A certified photo instructor is aboard to help you take advantage of the myriad photo opportunities. They are not only skilled photographers—trained to help you understand your camera and improve your skills—but also naturalists who can guide you in capturing the incredible wildlife behavior on display right in front of you.

GALÁPAGOS

10 DAYS/9 NIGHTS—ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II

Explore the legendary Galápagos Islands aboard our comfortable 52-cabin expedition ship, well equipped for actively experiencing the wildlife and wonders of the islands.

DAY 1: GUAYAQUIL, ECUADOR

Depart for Guayaquil and upon arrival, transfer to the Hotel Oro Verde Guayaquil.

DAY 2: GUAYAQUIL/GALÁPAGOS

This morning, fly to the Galápagos Islands and board *National Geographic Endeavour II*. After lunch, we begin our exploration of the islands and their diverse wildlife. (B,L,D)

DAYS 3–8: EXPLORING THE GALÁPAGOS

Listed below is a sample of islands we may visit during our expedition. Our expedition sails between San Cristóbal and Baltra and include visits to Santa Cruz and a careful selection of diverse islands. Our itinerary offers an optimal balance of wildlife, landscapes and experiences. All itineraries are subject to Galápagos National Park regulations. (B,L,D Daily)

SAN CRISTÓBAL

Stroll, swim, and snorkel from a green-tinted beach and hike inland to a cinder cone for views of an impressive volcanic landscape. Encounter nesting blue and red-footed boobies, along with San Cristóbal mockingbirds and San Cristóbal lava lizards, both endemic to this easternmost island.

ESPAÑOLA

Home to swallow-tailed gulls, Española mockingbirds, Nazca boobies and, seasonally, the world's only population of waved albatross at Punta Suarez.

FLOREANA

Follow a trail past a rose pink-tinted lagoon frequented by flamingos. Snorkel among sea lions and abundant fish, or cruise along Champion Islet by Zodiac. Visit the famous barrel at Post Office Bay.

SANTA CRUZ

Santa Cruz is not just the principal town in the islands, it is home to the Charles Darwin Research Station, where you learn about the science being done here. Visit the neighboring captive breeding program for Galápagos giant tortoises being conducted by their partners in conservation, the Galápagos National Park Service. Later after lunch in the highlands, search for wild Galápagos giant tortoises in their native habitat.

BARTOLOMÉ

Walk to the top of Bartolomé's volcanic cone for a stunning view of Pinnacle Rock and the surrounding golden sand beaches. After the hike, immerse yourself among schools of multicolored reef fish. You may also have the opportunity to swim with Galápagos penguins. Visit Sombrero Chino, the nearby islet in the shape of a Chinese hat, where you can take a Zodiac ride along the Sullivan Bay lava flow, and may also kayak and paddleboard.

GENOVESA

Sail into a flooded caldera, walk among swallow-tailed gulls, red-footed boobies, and Nazca boobies and keep a lookout for hunting short-eared owls. Ride Zodiacs, kayak along the caldera, and snorkel among large schools of parrot fish at this magical place.

BALTRA

The arid Baltra Islet was once home to a US airbase during WWII. Follow coastal trails past playful Galápagos sea lions on this wildlife-rich central island. Continue inland through a silvery forest of endemic palo santo trees, where frigatebirds nest, blue-footed boobies dance, and where we may also encounter prehistoric-looking land iguanas feeding on cactus.
